YOURS

Yours to keep
site and domain in your name

01 WHERE WE STARTED

What we built it around.

01 One part or a million.

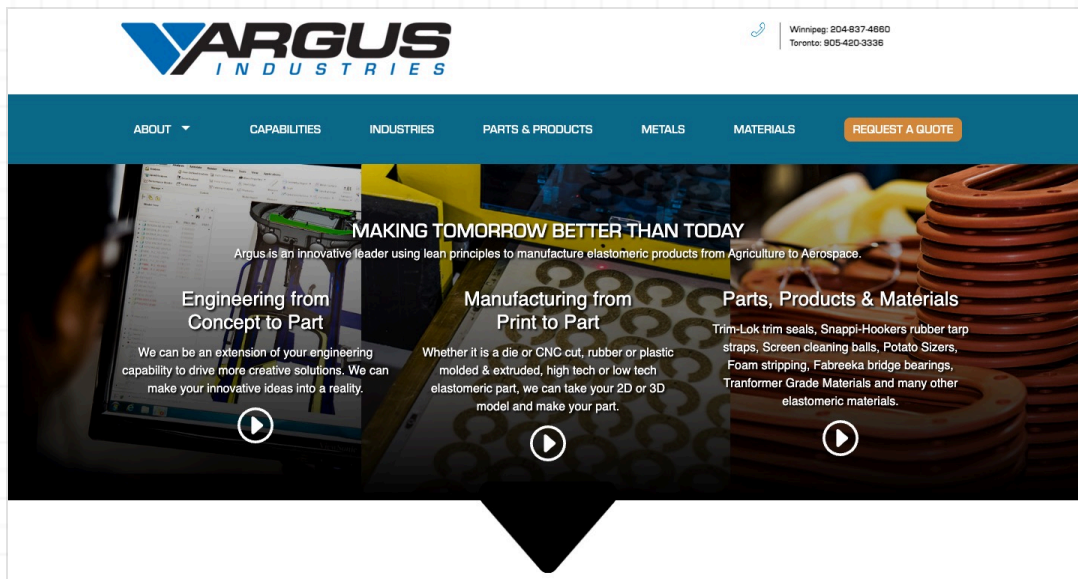

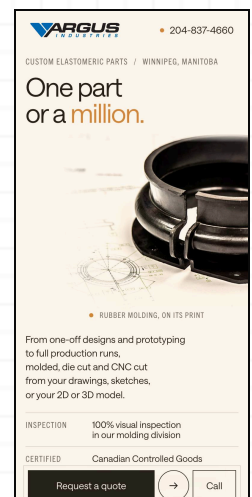

Your own words. Option 1 prints your molded rubber part on its engineering drawing across a warm page, with 100% visual inspection, Canadian Controlled Goods and your Winnipeg address beneath.

02 In time and in tolerance.

From your Capabilities page. Option 2 opens your logo's blue V across the screen, each bar a window on your own shop film: die cutting on one side, CNC cutting on the other.

03 Good enough can never be good enough.

Your homepage line, on a dark page. Option 3 builds your parts out of drifting points of light and re-forms them as you point at gaskets, seals, transformer sealing, weather stripping or cut to print.

06 QUESTIONS

The usual questions.

01 Will moving hurt my Google ranking?

We move it carefully. Every page address on your current site keeps working or forwards to its new page, and your titles and business details carry over, so nothing Google already knows about breaks. The new site is fast and built for phones first, which Google rewards. We don't promise rankings.

02 Is it secure?

Yes. There's no WordPress and no plugins to keep patching, the usual way small-business sites get broken into. It runs on modern hosting with SSL, and every version is saved, so any change can be rolled back.

03 Who owns it?

You do. The site and the domain are in your name, not ours. Hosting is included and nothing renews unless you ask. If you ever want to move it, you get every file.

04 How do I make changes?

Text or email me the change and it's live the next business day. The first 30 days are free. After that, unlimited changes come with any monthly plan, from \$250 a month, cancel anytime.

05 When do I pay?

Half (\$1,750) when you say go, the rest (\$1,750) when the site is live. You've seen the homepage before paying anything.

06 Can it carry our certifications?

Yes: a capabilities page, plus a one-page capability statement for meetings.
